

PROJECT DETAIL

Title: Canad Inns Destination Center

Owner: Canad Inns

Architects: JLG Architects

Project Size: \$28,373,751.13

Completed: May 1, 2007

Project Details:

CCI was one of three contractors that bid on the Canad Inns Grand Forks project. Once selected, we provided value engineering to save approximately \$1.7 million dollars in the budget. Some of the changes consisted of wall types and railing systems; mechanical and electrical items saved \$488,000. Despite a four-month delay due to design changes, we made up time and reached the open date. Adjacent to the Alerus Center, this 223,000-square-foot Canad Inns location has 200 guest rooms, three unique restaurants, a gaming lounge, fitness center and the 40,000-square-foot Splasher's of the South Seas indoor water park.
